

Short Course to Bring Many New Students Monday

Some Classes Will Meet Twice Daily During This Term

New faces will appear on the campus with the opening of the Short Course next Monday. Each spring at about this time, the College prepares to receive many new or renewed students for the annual Short Course.

While the Short Course is open primarily for teachers in Northwest Missouri, many other students will probably want to take advantage of this time, and attend the College. A student may pursue College work during any two of the three five-week sessions, held during the spring and summer, and earn credit equivalent to that which he could earn in the regular Summer term.

Students who attend the Short Course become a part of the regular College group and are urged to join in the regular social and recreational life on the campus. The Short Course enrollees will meet each class twice daily and receive the usual 2.5 hours credit.

Courses as outlined in the College catalogue are a part of the College curriculum and are those which the faculty feels will be most in demand by students who come for work at this time. If the demand arises other classes will be organized to fit the students' needs.

Students may obtain private lessons in music. For thirty one-half hour lessons, 1.25 hours credit will be given. Students are invited to take part in the College chorus, band, and orchestra.

Physical education classes for men will be arranged to suit individual programs and are not included in the schedule.

The incidental, activity, and text book fee for the Short Course is \$15. This includes the regular incidental fee; library and laboratory fees; admission to certain College athletic events; hospitalization if necessary; subscription to the NORTHWEST MISSOURIAN; part payment on the Tower, the College yearbook, if purchased; and the use of a locker.

A textbook deposit of \$3 is required, which will be returned when library and textbooks are returned in good condition.

The Short Course will close on May 23 when the regular College classes are dismissed.

THE PRESIDENT SAYS

The President was disappointed at the attendance at assembly Wednesday of this week. He understands that some programs are not as universally approved as others, but the program Wednesday was given by students. It concerned the most vital problems in the world today. The speeches were timely, well thought out, and well delivered. The only reason he can assign for an American not being interested is that that American is not thinking.

Attendance at assembly is required by the regulations of the college. College students as well as other citizens should learn that all organized society is dependent upon observance of law and regulations.

We do have assembly programs that are not as interesting and entertaining as others. Recently, there has been some justified criticism regarding two of them, but students do not leave or avoid meals because they are not the best they have eaten, nor entertainments because they have seen better ones, nor dances because the music is not up to standard, nor athletic contests because their favorites are defeated. Surely once a week they can attend an assembly program even though it may not be just to their liking.

The President hopes that every student and faculty member will be at assembly unless something very urgent and necessary keeps him away. It should not be necessary to assess diminished credit for assembly absence.

UEL W. LAMKIN, President.

Students Attend Press Meeting at College Saturday

Journalist Delegates Confer on Problems of High School Newspaper

More than 100 delegates attended what is hoped to be the first annual Northwest Missouri High School Newspaper Conference which was held at the College last Saturday. Twenty different schools were represented.

Gathering for round table meetings, the delegates listened to papers read by student editors on news writing, editorial problems, and problems of publishing. At luncheon they heard M. W. Stauffer, Maryville publisher, speak on the importance of the newspaper in young people's lives, and some of the future trends in journalism.

Although the outlook for employment in the journalistic field is not good at present, Mr. Stauffer pointed out, journalism students have as good an opportunity of earning as do persons in other vocations.

Mr. Lamkin Talks
Following registration Saturday morning, a general meeting was held. President Uel W. Lamkin spoke to the group on the importance of young writers getting a general education, especially if they intend to become journalists. He pointed out that this College does not offer courses in journalism for the same reason it does not offer courses in law or medicine.

Three other persons spoke at the opening meeting. They were Miss Mattie Dykes, Miss Mary Harmon, and Mr. Herbert Dieterich. Virgil Elliott presided at this meeting.

Round table discussions were held, at which time eleven five-minute papers were read and discussed. The students reading papers were Dorothy Cole, Maryville; Betty Jane Chrisop, Jamesport; Katharine Cook, Jamesport; Marjorie Mitchell, Maryville; Evelyn Elliott, Graham; Esther Lee, French, St. Joseph; Earl Pope, Maryville; Eleanor Peck, Fairfax; Maxine Young, St. Joseph; Christine Kaufman, Graham; and a delegate from Skidmore High School.

Miss Dykes was in charge of a meeting of the high school newspaper sponsors which was held in the afternoon. Also in the afternoon, a news writing contest was held for the writers, and was in charge of Kenneth Tebow.

Edith Western, Maryville High School, was elected president pro tem for the 1941 conference, at the business meeting Saturday afternoon. Miss Western named a committee of three to work with her. They are Inez Redman, Maryville; corresponding secretary; Bill Scott, Graham; and Betty Wallace, Maryville.

Householders Organization Takes Action

Men Students Are to Have Changed Living Conditions in Houses

The organization of householders for College men, which has been inactive for some time, has become active once more under the leadership of Mrs. Hugh Strong, and the regulations on approved houses for men are tightening, it was announced this week.

Men students of the College will be permitted to live only in rooming houses which have been approved under the new provisions recently adopted by the Association of the Householders for Men.

This announcement came about following an intensive investigation which has been carried out during the last year through the office of Mr. J. L. Zwingle, director of personnel for men, with the cooperation of Alpha Phi Omega, scout fraternity; householders; and the Y. M. C. A.

The householders' organization, which at present includes seventy-two approved houses, will abide by new regulations, which it is hoped will receive the cooperation of men students.

A Continuous Improvement
According to Mr. Zwingle, "We should like to have a program of continuous improvement, and enlist the cooperation of the men in an effort to make living arrangements on the campus a part of the student's general education."

Mrs. Hugh Strong, chairman of the Association of the Householders for Men, has worked with Mr. Zwingle since last fall, and it is her belief there should be an organization for men, to conform to the Varsity Villagers for women.

"The reason for this is the same as the reason for an organization for rooming houses for women," Mrs. Strong said this week, "and certainly that organization has improved rooming conditions for women."

A Membership Fee
As a result of a survey which has been conducted with the cooperation of the scout fraternity, certain houses have been asked to make improvements, and if these are not made within a reasonable time, the houses will be removed from the approved list.

Under the revised regulations set up for rooming houses, the householder will pay a membership fee of fifty cents a year.

Application for approval for a rooming house must be made by the householder at least one quarter in advance of the quarter for which approval is desired. Houses will not be added to the approved list until there is evidence of additional demand for rooms, or until there is a vacancy in the approval list. Houses considered most desirable will be given preferential rating. This list will be available for inspection at any time.

Should Attend Meetings
Householders who move to a new address must apply for approval of the new house.

The new regulations state that no householder will remain on the approved list who fails to attend the meetings of the organization without adequate reasons for such absences.

The householder shall make sure that students have read the regulations to be observed.
Efforts are being made to provide a cheerful room atmosphere. Window shades should be fairly new, and woodwork must be freshly varnished or painted, according to the new regulations.

A Two Weeks Deposit
Another new feature in the organization is that householders may require a deposit of two weeks' rent when men students engage rooms.

When questioned about the possibilities of having an organization on the campus similar to the Varsity Villagers for women, Mr. Zwingle replied that men may not be ready yet to undertake a social program of this nature, but added that it would be a fine thing for such an organization to exist to bring about closer relationships between the student, the householder, and the office of personnel for men.

Robert Turner Wins Presidency With 63 More Votes Than Bird

Marjory Stone Wins Unopposed; Classes Elect Twelve Senators

Robert Turner, twenty year old fine arts major, Tuesday was elected president of the Student Government Association at the College for next year. He defeated his only opponent, Edward Bird by a vote of 281 to 218.

With a thirty-two vote majority, Turner was carried into office with only about one half the student body exercising their voting privileges at the polls. The total vote of 499 was one vote less than the total cast in last year's general election.

When interviewed following the election, Turner stated his policy would be to serve the interests of the students of the College. When questioned about the Student Union plan, he replied: "If the students want a Student Union, I am for it too."

Marjory Stone, unopposed, is the new vice-president of the SGA. Miss Stone is at present secretary of the Student Senate.

Voting for senatorial positions was not close in most instances, the closest being between Jack Garrett and Bill Bennett, which Garrett won by five votes.

In the Junior race, Frank Strong won over Marjory Powell 66 to 26; Rex Steffey over Robert Taylor, 49 to 43; to capture the two three-term positions. For the two-term office, Vaughn Means defeated Leason Wilson, 50 to 41. Harry Darr defeated Frances Pyle 50 to 39 for the one-term office.

For the two three-term Senate places, the Sophomores named Francis McCaffery over Marvin Gench by a vote of 67 to 50, and Ted Young over Kenneth Crawford by a vote of 82 to 36. Mary Lou Melvin lost to Bob Clark 44 to 72 in the two-term race. Wallace Oursler was victorious over Charlene Barnes by a vote of 70 to 48 in the one-term contest.

The Freshmen named Jack Garrett and Priscilla Ann Peagans to the two three-term offices over Bill Bennett and Barbara Lee by votes of 78 to 73 and 85 to 63 respectively. For the two-term office, Edward Phillips lost to Jack Hawkins 71 to 77. Alta Jean Jones defeated Kathryn Jarrett 85 to 60 for the one-term position.

The present Student Senate was in charge of the election.

"Ladies of the Jury" Entertains Audience in College Auditorium

It is uncertain whether Elmer Barton, speedy Maryville dash man who pulled a leg muscle last Friday in the Peru meet, will be ready to work in today's affair.

Bearcat Claws... by ken tebaw

As luck, fate, or what have you, would have it, the swing of victory lifted from the course of the Bearcats last Friday afternoon as they lost a thrilling meet to the Peru Bobcats from Nebraska. It was indeed a thriller down to the last javelin throw.

Just three inches was between a Maryville victory and the defeat they suffered. But it seems that everything bad happens all at once. When Barton hurt his leg during the 100 yard dash, everyone thought that was bad enough, then being downed by the Nebraskaans in the last event in a battle for third place in the javelin—that's nearly too much!

Although last week proved almost too much for that which Spring had already done, it was inviting for the footballers, who have really been going through their paces. Last Friday's meet was played a little on the chilly side but it was a pleasant day.

Now for a glance at the individual scoring statistics for the three meets to date. These three meets include the State indoor meet, the William Jewell dual meet, and the Peru meet last Friday. Wayne Taylor, sensation at distance man from Mound City is leading with 32 points. He is holding this lead by winning the mile and half-mile events in every meet he participates in.

Merrill Ostrus is in second place with 25 5-6 points. He has been adding to his total by high jumping and running the hurdles. In third place is Elmer Barton with 21 1/2 points. This St. Joseph runner is a dash man and runs anchor on the relay teams.

Bernie McLaughlin is running next with 15 1/2 markers. Bernie runs the hurdles and is on the relay teams. Pete Noblet, flashing freshman from Maryville

and winner of the mile run at the State high school meet last year, is pushing Mac for fourth place honors being only 1/4 of a point behind him. Before the season is over Noblet will be pushing Taylor hard for those first place in the mile and half-mile events.

Others following in their respective order include: Long, Yasinski, Reno, Bernau, Carter, Turner, Burton, Davis, Yourek, Baker, Reital, and Silvey. All of these men have made 2 or more points for the Bearcats this season.

Freshmen among the point collectors are few but they are doing their work well. Noblet is a freshman and was mentioned a short time ago. Another hustling freshman is Bill Yasinski. This man, who is also good football material, should be up among the top notchers in the battle for individual scoring honors before the season is over. Other freshmen in this class are Harry Davis, broad jumper, and Bob Silvey, distance man.

The Bearcat netmen did not fare so well over the Peru racketeers and Schultz was the only man to win in the singles. In the doubles the same winner paired off with Hutchison to win their match. Don Deere, Ike Howell, and Hutchison lost their single matches.

Schultz, who is another freshman, had a little difficulty with Sommers of Peru in the first set of their match. The count went to 11-9 before the carrot-topped Maryvillian could take the set. Deere and Howell went 9-7 and 10-8 before going down in defeat in the finale of the tennis meet.

Kirksville will be here this afternoon to see what they can do to the Bearcats. Here's hoping the weather "ain't what she used to be" and that there will be a large crowd on hand to see the contest.

This Way...

1. Should a woman be seated at the right or left of her escort? The woman is always seated at the right of her escort unless it is impossible for her to be so seated.

2. What does one do with a paper napkin after the meal? When one has finished eating, it is very bad taste to put the napkin crumpled like a ball in your plate or your cup. You place it neatly folded at the side of your plate.

3. If you, a man student, are inviting a woman friend from off the campus to any social functions should you pay all of her expenses? When a woman accepts a date to any of the social functions it is understood she will pay her own transportation unless you have a car of your own or arrangements to get her. It is understood that you will take care of all of her expenses while she is on the campus, also make necessary arrangements for her to stay with one of your friends or the dormitory.

Peru Track Team Wins Victory in Meet at College

Bearcats Lose First Home Track Event by Close Score of 67-69

Three inches on the javelin throw stood between the Bearcats and victory over Peru, Neb., last Friday in Maryville's first home track meet of the year. Peru led 65 to 62 at the beginning of the last event, which was the javelin throw. Elmer Barton of the Bearcats took first place in the event with a distance of 179 ft. and Handley of Peru was second with 165 ft.

Greathouse's (Peru) and Yasinski's attempts looked like a tie to the spectators but the tape line showed the former's distance to be 180 feet and the latter's to be 159 feet and 9 inches. The meet ended 69 to 67 in Peru's favor.

The outcome might have been different had not Elmer Barton, Maryville sophomore, pulled a muscle in the 100 yard dash. He was leading the other entrants by a good margin when he seemed to go down. He fell as he crossed the line after finishing second. The muscle was treated but he withdrew from both the 220 dash and the relay in which he was scheduled to enter.

Reital, Baker, Darr, and Taylor represented Maryville in the mile relay. Taylor, anchor man, who had already entered and won the mile and half-mile events, was unable to keep the lead held by Maryville at the 3-4 mark, and was beaten by Mather of the Bobcats.

Peru led most of the way in the half mile relay, and although Yasinski finished strong, Fisher beat him to the tape in the last 1-8 mile.

There were several close finishes in the meet. Yasinski and Ashley tied for first in the 440 yard run while Greathouse and Kruse both tossed the discus 120 feet 4 inches.

Two Maryville men, Darr and Reno, tied for first and second in the pole vault at 11 feet and 6 inches.

Jim Mather of the Bobcats took individual scoring honors with 16 1/2 points. Greathouse was second with 14 1/2 points.

In the tennis division of the meet, Schultz of Maryville won his singles match while Hutchison, Deere, and Howell lost to Peru men. Schultz teamed with Hutchison and they won their doubles, but Deere and Howell were defeated.

Economics Class Visits Missouri Financial Center

College Group Sees Kansas City Reserve Bank and Exchange

How many College students have ever seen a one hundred thousand dollar gold certificate? The answer is probably that very few have had this rare experience. Those who have seen such a huge sum of money are sure to remind their friends of it at every opportunity. In fact they may be likened to the famous character in Mark Twain's, "The Million Pound Bank Note". They are usually so thrilled with the sight of the money that they are literally "millionaires".

But such is the case with a group of nine College students and their sponsor who made a trip to Kansas City recently to study economics by the observation method. They visited the largest bank in the United States according to the area served; they saw stocks being bought and sold in an exchange; they saw a factory in production and they saw one of America's fastest growing transportation systems in operation. These subjects are studied in the College classrooms but it was not until the students of economics saw the various phases of industry in operation that they were able to get a keen comprehension of business activity.

At the Kansas City Federal Reserve Bank, which is a bankers' bank only, the class saw one of the few one hundred-thousand dollar gold certificates which are in existence. The certificate, with others of \$10,000, \$1,000 and \$100 denominations each, is kept so that whenever the United States may adopt the gold standard again the Kansas City Bank will be assured of at least \$111,100 in gold.

The guide emphasized to the class that a federal reserve bank is a privately owned bank and differs from other privately owned banks in that it does no business with individuals—rather doing its business with the government and other banks.

The Bank has two billions in securities, bills and coins on deposit in its vaults. In one room alone, there are \$65,000 in pennies. The coins are sacked in bags and stacked like cord-wood in rows. The guide explained that during the time when slot machines were so numerous, there was a shortage of pennies, but after the devices were outlawed, the coins came in until the Bank had over twice the number of pennies which it now has on hand.

The building is under constant guard with twenty-eight armed men on duty. The vault door weighs thirty-one tons. It is so perfectly balanced that it can be moved with one finger.

It was pointed out to the class that the only source of income, which the bank has, is through discounts. At times discounting has provided a fair income, but at the present time this phase of the Bank's business is comparatively quiet. Several floors of the building are rented to other businesses. The Reconstruction Finance Corporation has part of one floor.

See Ticker in Operation

At the H. O. Peet and Company Stock Exchange, the class saw the ticker in operation which cites quotations from the New York Exchange. Prices of the various stocks are posted on a huge black-board. A large revolving screen carries the results of activity on the New York Exchange.

In Kansas City, Kansas, the class visited the Palmolive Peet Company soap factory. This factory, which employs five hundred people, turns out about fifteen freight cars of soap each day. There are twenty-two large kettles which hold over 50 tons of liquid soap each. The plant has a press which prints the wrappers for the finished products. A guide explained that perfuming the soap is a big task in itself. The plant uses three pounds of perfume for each 150 pounds of lilac soap.

The last place visited by the class was the Municipal Airport. The word which is on the minds of everybody connected with this industry is "safety". Each plane is given four distinct service jobs. Once each 4,500 flying hours, the planes are completely rebuilt. Experts maintain that such precaution explains why accidents and fatalities have been so greatly reduced in the past year.

Sometime in June the new sub-sonic planes will be placed in operation through Kansas City. These planes, larger than any commercial planes ever used, will fly at elevations of about 25,000 feet where weather conditions are constant.

Those who made the trip were: Glen Edmonson, Frank Hall, Virgil Klotz, Dick Miller, Jim Manley, Richard McDougal, Robert MoQueen, Lloyd Story, Lee Barber and Dr. and Mrs. Albert Blumenthal.

Ohio State University student fliers are making mass flights to other colleges during week-ends in order to arouse interest in civilian flying.

Roses . . . and Razzes

Spring has come, and with it the usual seasonal influx of new clothes in the most shocking colours, but yet, the newest thing we've seen this season is that new Dodge we saw parked behind the Dormitory on several occasions. I didn't know to whom it belonged until the other day I saw it going down the street with a great big smile behind the wheel. On closer inspection I saw that both the smile and the automobile belonged to Miss Marian Kerr. Now, for pure class and spring style, I suggest that you take a look at the grey coupe with the wine upholstery.

Now this might be mistaken for a paid advertisement for the Dodge people, but it isn't. I only wish it were.

While the name of Kerr has already appeared on this page I want to say that it is with sincere pleasure that I learned the Triple Trio was going to give its first full length program in the near future. This program will give those of us who have never had enough of the Trio a chance to get our fill of the really grand music they put out.

This group of girls has been singing together now for three years, approximately, and this alone is an indication of their harmony.

If my figures are right, only three of the girls will be lost by graduation this year, which leaves a nice group around which to build next year's Triple Trio. This material which I am saying here is all just my own memory, so, please, Triple Trio, don't sue the Missouriian for libel if I say anything too badly wrong. But to go ahead, three of the girls started out as the Freshman trio and have sung in this musical organization ever since.

Anyway, I know that there are many people who are looking forward to this concert with a great deal of anticipation, for it has always seemed that the few songs they have sung on different occasions have been merely a teaser.

While on the subject of music, this column's deadline was last Monday, and I'm sorry it was because if I had heard Miss Kampmeyer's recital previous to the writing of this, it would surely have been a column in praise of the splendid performance that she gave. It was her first recital since coming to the College, and we must say that it was worth waiting for. I'm no musician, far from it, but it seemed to me that her technique was almost flawless, and I can say that her appearance was exquisite.

I'm sure that anyone who heard it would have wished for more and more and more. One thing that stood out particularly was that no one got up and surreptitiously left between numbers, which is an indication to me that the student body does know what it likes, and that when there are things worth while there is no lack of appreciation of their worth.

And mention should also be made in connection with the last two paragraphs of the fine job that Miss Leeder did in accompanying the violinist in her recital. One wasn't conscious of the presence of the piano, but still it supplemented the violin at all times. Mention also, special mention, to the undeniable gift that Marvin Gench displayed in his masterly turning of the pages.

More than a hundred high school students gathered on the campus last Saturday for a full day of education in the problems pertaining to high school newspaper. The Northwest Missouriian pioneered in this step and made this the first

Plans for Dance on Campus Are Shrouded in Deep, Dark Mystery

What is the cause of the bustle and hum of activity around the campus these past few days? Everybody seems to be preparing for a big celebration or fun festival of some sort. And with all the expectancy there is an air of mystery and suspicion which shrouds it all.

Someone has hinted that it may be an invitation dance. Another says refreshments are to be on the house. Someone else reports a rumor is circulating to the effect that as many as 400 people are expected to attend. Another claims that both the east and west rooms of the old

library will be necessary to accommodate the swimmers.

When will this grand gala affair be officially announced? When will it be held? Who is sponsoring it? Where will 400 people be taken for refreshments? How will so many dancers be accommodated? And why is everybody asking everybody else questions?

The NORTHWEST MISSOURIAN staff promises to learn more about what is happening as soon as it is possible to do so. Anyone who may get a scoop of this affair is urged to get in touch with a reporter at once.

School Press to Meet at Columbia

The eighteenth annual Missouri Interscholastic Press Association convention, which will be held in Columbia on April 27, will offer an entertaining and informational program to delegates. Besides the association's regular business, various individual contests and added entertainment will be featured.

The business session includes registration of delegates, criticisms of entries, awards for prize-winning entries, election of officers, and routine business.

Entertainment for the convention includes a dance, a banquet for members and delegates, inspection of University of Missouri buildings, reception in Knights of Columbus Student's home and souvenirs and prizes. The School of Journalism will be open for inspection throughout the day.

"What the dickens are you doing down in that cellar?" demanded the rooster.

Northwest Missouriian High School Newspaper conference. It went off with a bang and the students who attended cooperated splendidly in making the whole convention the interesting, informative, and educational thing that it was. The whole staff are deserving of congratulation for this fine piece of work and they intend to make this an annual affair. More power to them, and The College has once more seen a need in Northwest Missouri and done its best to care for that need.

THE "GO AHEAD" SIGNAL

Now that the excitement of the general election is over, and student politics is no longer in the spotlight, it would seem the placid calm would return again. But this should not be the case. The time is here for action.

When the election is over, the working out of a constructive student program is only begun. Those who went to the polls made possible only the first step in a new deal in student government.

Out of this annual campaign for SGA officers has come the plea for a Student Union. This plan in detail was discussed in last week's issue of this newspaper. Now that the election is over, the time is here for work to go ahead on this plan.

Perhaps certain officers of the new Student Senate may not be in favor of such a plan. There are difficulties which this plan has to face. A big one is lack of interest. But the administration of the College has made it clear that a Student Union must necessarily have the support of the students of this campus.

The election is over. There lie ahead many new goals to be achieved by the new SGA officers. And their work is more than a privilege; it is a duty.

The path is clear. The signal is GO AHEAD!

Survey Reveals "Ghost Writing" Is in Disfavor

Large Percentage of Collegians Disapprove Student Study Method

By JOE BELDEN, Editor
Student Opinion Surveys of America

Austin, Texas, April 18—"Ghost writing," the practice of preparing themes and reports for some one else's class work, gets a thumbs-down expression of opinion from three-fourths of American college students.

What may be more surprising to some, however, is that the other fourth is either indifferent or openly in approval. These are the results of a poll conducted by the Student Opinion Surveys of America, collegiate sampling organization of the undergraduate press, of which the Northwest Missourian is a member.

"What is your opinion of the practice of students paying ghost writers to prepare themes and term papers for them?" was the question presented to a scientific cross section from coast to coast.

Disapproving were seventy-five per cent; indifferent were ten per cent; approving were fifteen per cent.

Answers to the query were tabulated by the interviewers in five different categories to indicate the intensity of feeling on this issue. These results are given below:

Strongly opposed.....54 per cent
Mildly opposed.....21 per cent
Indifferent.....10 per cent
Mildly in favor.....8 per cent
Strongly in favor.....7 per cent

Significantly, it may be noticed that a majority of students, fifty-four per cent, is in the strongly-opposed class. Also, the trend of approval, looking down the preceding row of figures, dwindles down to a mere seven per cent at a rapid rate.

The ghost argument of those who favor ghost writing is that in effect it often helps students by giving them more time to study for more important and pressing courses. On the other hand, the majority of those opposed condemn it as plain scholastic dishonesty.

School Play Day Will See Many Here Tomorrow

Dr. Margaret Ruth Smith, director of personnel for women, will give the welcoming address to a group of students representing twenty-eight high schools in the Northwest district when they gather at the gymnasium tomorrow morning for the annual "Play Day" sponsored by the Women's Athletic Association of the College.

The program, which will last from 9 o'clock in the morning until 4 o'clock in the afternoon, will consist of the following activities: Registration, games, contests, relays, folk dancing, picnic in the College park, volleyball and baseball games, ping pong, badminton, and shuffle board.

Mariana Obermiller, general chairman of the Play Day activities, announced that all W. A. A. members are expected to be on hand tomorrow to assist unless they are excused by her.

Chairmen of the committees which are making plans for the day's activities are: Invitations and regulations, Junetta Barnhouse; equipment and supplies, Vida Bernau; judges, Mary Madgett; and scores, Emma Isabel Brown.

Students Leave for Newspaper Meeting

Four members of the NORTHWEST MISSOURIAN staff left this morning for Columbia, where they will attend the two-day annual conference of the Missouri College Newspaper Association.

Those student delegates are Virgil Elliott, editor; Virgil Kiontz, assistant editor; and Jean Martine and Robert Flowers, reporters.

Elliott will be in charge of a forum discussion tomorrow morning on editing and make-up for a college newspaper. The group will return to Maryville tomorrow evening.

Book Review

Portrait of Jennie by Robert Nathan. (1940. 212 p. Knopf, \$2.50.) When the artist who tells the story first saw Jennie in 1938 she was an old fashioned child of another time, playing in Central park. During their brief friendship over a brief space of time, and infrequent meetings, Jennie grew fast to maturity, the friendship became love, the artist painted her picture and became famous, tragedy intervened, and all was over. The fantasy has a delicate charm and mingling of past and present is expertly done. The story met considerable popularity as a serial in Redbook.
